

## Custom Landscape Artwork

Minimum Artwork Price - \$200

50% deposit required to begin work

As these illustrations are very detailed and can be quite involved, I have created three different levels that a photograph can fall into, along with price ranges for each option.

Simple Photo - Roughly 15 - 25 hours (\$200 - \$300)

Moderate Photo - 25 - 40 hours (\$300 - \$500)

Complex Photo - 40 hours + (\$500+)\*

These hourly ranges are only estimates, so there is the possibility that the number of hours could be exceeded. Additional hours will be charged at a lower rate, depending on the amount and on the reason for the extension.

Additional applicable costs include:

- Change requests by client after concept approval
- If additional hours are required outside of the estimate, they will be charged at a discounted hourly rate.
  - Discounted hourly rate is only applicable when the original estimate is too low. Does not apply to changes made by the client after concept approval.

When it comes to ordering the actual print itself, the options are very flexible but I have created a broad overview of the typical choices that can be made:

Small Scale (5x7 or 8x10)

- Includes:
  - Two matted prints
  - Ability to order duplicates at any point at 50% off (small scale) and 25% off (large scale) of non-custom print prices
  -

Large scale (11x14 or 13x19)

- Includes:
  - One matted print
  - Ability to order duplicates at any point at 50% off (small scale) and 25% off (large scale) of non-custom print prices

If you are interested in a print that is larger than 13x19, it will require extra time and an additional fee as I have to order these sizes from a third party printer. I am happy to discuss!

I am happy to create an order that works for you, so feel free to ask and we can adjust product options as well!

\*Number of hours required and cost for “complex photos” will be discussed and adjusted as the project evolves
